Services

- Expert Sun/Sparc/PC server installation, configuration, buildout, deployment.
- Expert Solaris/Linux/xBSD installation, configuration, buildout, deployment.
- Ongoing management, administration, performance tuning of same.

Rates

Server/Software Installation, Configuration, Buildout, Deployment:

- 8:00am – 6:00pm, Monday through Friday: \$55 per hour
- 6:00pm – 8:00am, Monday through Thursday: \$65 per hour
- 6:00pm Friday – 8:00am Monday: \$75 per hour
- Travel time exceeding thirty minutes, per day: 50% of rate in effect at job start-time

Ongoing Management & Administration: Negotiated.

Server administration is as much an art as it is a science. Each deployment has specific needs and requirements; management and administration may be occasional and minimal, or daily and highly involved. For a commitment to ongoing administration, a base monthly fee of \$330 applies, which includes up to six hours of remote access (ssh) service, or three hours of onsite service, based upon the stated rates.

Emergency/Urgent Service: Prevailing rate plus 25%.

This rate applies to true emergencies that require onsite presence on short notice. The clock starts when the request is accepted. All travel time is billable.

All stated rates are negotiable, depending upon client's needs or ability to pay. Long term commitments are negotiable for lower hourly rates. Some non-profit organizations may qualify for discounted or pro bono services; please inquire for details.
